OBJECTIVE

I'm a self-taught backend developer with practical experience in JavaScript, Node.js, and MongoDB. I've worked on projects that showcase my skills in building APIs, managing databases, and solving problems. I'm eager to work in a dynamic environment and am dedicated to improving my skills and learning new technologies. My aim is to contribute to a team and help create efficient, high-quality software.

SKILLS

Front-End Development HTML5, CSS3, Bootstrap, Javascript
Back-End Development Node.js, Express, Ejs, Socket.io, RestAPI, bcrypt JS
Database MySQL, MongoDB
Soft skills Adaptability, Teamwork and Time Management

EXPERIENCE

Stackup Learning Hub Software Developer Intern	Trivandrum, Kerala Feb 2024 - present
<ul style="list-style-type: none">Developed a strong foundation in backend development using the MERN stack.Created projects that highlight my skills in backend architecture, APIs, and database management.Built scalable and secure backend solutions with a focus on server performance and data integrity.	

PROJECTS

Blogging Platform	Node.js, Express.js, MongoDB, Ejs
<ul style="list-style-type: none">Developed a blog management web application with full CRUD functionality.Implemented user registration, login, and an admin portal for content management.Built using Node.js, Express.js, MongoDB, and EJS, with a responsive front-end designed in HTML, CSS, Bootstrap, and JavaScript.Secured user authentication with JWT and sessions, and integrated front-end API calls for effective backend interaction.
